

Mench Financial, Inc. Markets Outlook 1Q 2026

With the composite US Treasury yield curve staying at 4.4% and coupon yields at historical norms, we believe fixed income securities will produce positive normalized returns for the next 12 months. We will favor intermediate-term investment grade bonds going forward.

We are projecting equities will produce positive normalized returns. We will continue to prioritize diversified domestic and international stocks and favor equities over bonds in blended accounts.
